ARTFACTS – INTERNATIONAL VISIBILITY: THE A.P. ART GALLERY IS A REGISTERED PARTNER OF ARTFACTS

The A.P.Art Gallery's every exhibition is registered in the international ARTFACTS database. Each exhibiting Artist is individually assigned a registered place at the exhibition.

THE EXHIBITING ARTISTS APPEAR ON THE ARTFACTS INTERNATIONAL PLATFORM

850,000 ARTISTS

25,000 GALLERIES

8 000 MUSEUMS

- Artfacts has been collecting data globally on galleries, fairs, and artists since 2001, and ranks them based on various criteria.
- More than 850,000 artists from the creators of past centuries are included in its database, as well as over 25,000 galleries and 8,000 museums.

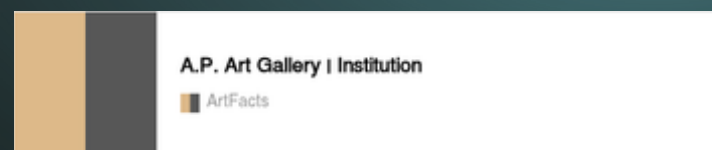

The rankings are determined by factors such as the rank and number of exhibitions, the position of the exhibiting artists, and other parameters. The information in the database remains permanent, and all data is verified by separate curators, ensuring the basis for objective ranking.

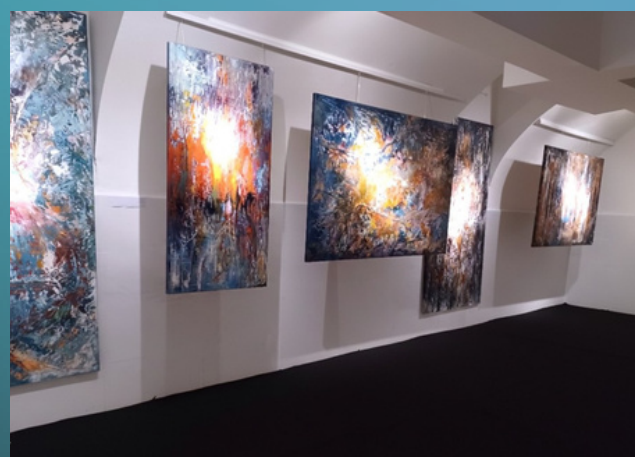

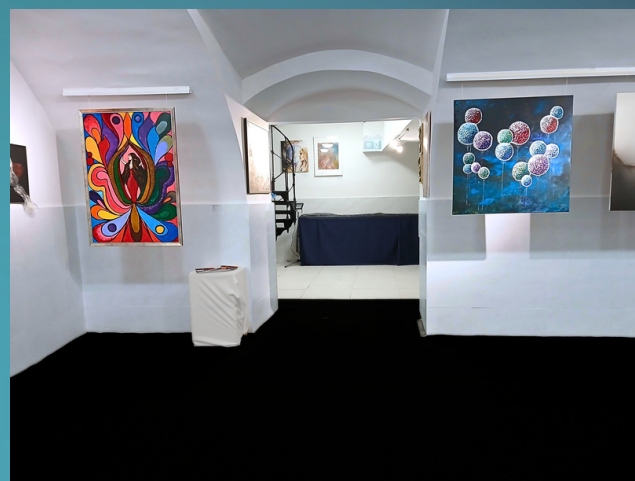

The Artfacts include Limna, the world's first AI-powered art advisor, making it easier for anyone to confidently purchase artworks, exclusively offering pieces by artists registered with Artfacts.

Additionally, Artfacts is partnered with the international auction platform Artnet.

We provide international positioning consultancy for the artists exhibiting with us to help enhance their reputation.

„This is supported by the gallery as positioning a professional background, which will assist every artist's further progress in the future.”
